

ET5213 Managing New Ventures Course Outline

Course Code	ET5213
Course Title	Managing New Ventures
Pre-requisites	Nil
No of AUs	3
Contact Hours	39

Course Aims

This course aims to help the students relate theoretical concepts of strategy and organization design with practical and execution issues of managing new ventures in today's economy. Strategies for new venture development and key elements that propel scaling up as well as impede growth will be explored. You will understand the process from starting a new venture to the growth and development of the venture, as well as concepts such as entrepreneurial motivation, new venture types, competitive analysis, go-to market strategies, raising funds for start-ups, harnessing human capital, and execute operations for sustainable growth.

Intended Learning Outcomes (ILO)

By the end of this course, you should be able to:

ILO1: Describe and discuss the aggregate picture of managing new ventures in today's economy.

ILO2: Demonstrate broad knowledge in new venture development process from the aspects of market strategies, business models, fund raising, operations for profitability and sustainable growth.

ILO3: Determine relevant forms of new ventures with different entrepreneurial motivations and business scenarios.

ILO4: Conduct competitive analysis and formulate go-to market strategies.

ILO5: Identify and evaluate the risks and challenges of managing new ventures and apply relevant knowledge and skills for problem solving.

ILO6: Apply specific knowledge and skills for tasks related to formulating go-to-market strategies, managing human resource, collaborating with value chain partners, and developing growth strategies.

Course Content

1. Entrepreneurs and New Ventures: What & Why
2. New Venture Development: How & Who
3. Forms of New Ventures: What kind
4. Product and Service Development
5. Develop the Performance Management System
6. Financial Management
7. How to Raise Start Up Capital
8. Managing A Venture – Human Capital
9. Managing A Venture – Operations, Profitability and Sustainability
10. Value Chain and Collaboration
11. Growth Strategies and Risk Management
12. Dynamic capabilities and Agility
13. Group Project Presentation

Assessment (includes both continuous and summative assessment)

Component	Related Programme LO or Graduate Attributes	Weighting	Team/ Individual	Assessment Rubrics
1. Class Participation	ILO1, ILO2	20%	Individual	Appendix 1

2. Mid-term Continuous Assessment	ILO1, ILO2, ILO3	20%	Individual	MCQ
3. Group Project ¹	ILO4, ILO5, ILO6	50%	Team	Appendix 2
4. Final Reflection Memo	ILO1, ILO2, ILO5	10%	Individual	Appendix 3
Total		100%		

Class Participation 20%

- Classroom discussion is vital to the learning process in this course. Each student is expected to contribute to class discussions and appropriate marks will be awarded continuously throughout the course on the basis of the quality of one's contribution. Assessment criteria will include demonstration of analytical capability, integrative thinking, and interpersonal and communication skills. Merely showing up for class does not constitute a contribution.

Mid-term Continuous Assessment 20%

- There will be a continuous assessment scheduled between Sessions 7 to 9. The assessment format will be multiple-choice questions (MCQs). Students will be given 30 minutes to complete the assessment during the class session. This assessment will motivate students to develop a critical understanding of the essential theories and concepts learned in this course.

Group Project: Oral Presentation (25%) and Written Report (25%)

- Students will work in a group of 3-5 students, supervised by the course instructors. Each team will need to work through and come up with a detailed analysis of how a technology will be brought to market based on the team's analysis derived from primary and secondary data. The list of technologies/inventions will be provided by the instructors. At the end of the course, each team will be given 15-20 minutes to present their proposal in class.
- Please refer to the rubrics found in Appendix 2.

Final Reflection Memo 10%

- Each student needs to submit a reflection of your learning journey in this course. Your reflection should not exceed 500 words (no more than 2 pages, double-spaced, font size 12).
- Please highlight your key learning points and how your perspectives and beliefs have changed because of what you have learned or experienced in this course.

¹ Peer evaluation will be used in moderating the grading of project presentation and final written report for each individual team member's score.

Formative feedback

Feedback will be provided to students. Ideas will be judged on their merit, impact, and feasibility.

Students will be encouraged to “find their voice” during the team and individual presentations. At the same time, sufficient time will be provided to promote discourse and clarification, and to collectively derive a higher level of abstraction and deeper level of conviction so as to persuade. It is envisaged that the classroom environment should be more accommodating to encourage confidence building.

Learning and Teaching approach

Approach	How does this approach support you in achieving the learning outcomes?
Reading	Intensive study is required to break into the field of managing growth. Students need to read deeply to formulate a broad view of what makes a company tick, and with that grasp of on-going challenges, deciding which direction to grow becomes more informed, disciplined and intuitive.
Picking a specific topic of interest to write	To promote independent thinking and development of business judgment and linking to an area of direct interest to the student.
Individual research & networking with the entrepreneurs and executives	Students explore entrepreneurial ideas through peer-to-peer learning. Promotes intensive and authentic conversations about direction as well as gaps in understanding. The students are encouraged to approach entrepreneurs and understand their mentality, as well as the management style. Moving out of their comfort zone within the school, and reaching out to the industry, through their networks and cold calling to simulate how life is like as a new venture entrepreneur or management executive.

Course Policies and Student Responsibilities

(1) General

Students are expected to complete all assigned pre-class readings and activities, attend all seminar classes punctually and take all scheduled assignments and tests by due dates. Students are expected to take responsibility to follow up with course notes, assignments and course related announcements for seminar sessions they have missed. Students are expected to participate in all seminar discussions and activities.

(2) Absenteeism

Absence from class without a valid reason will affect your overall course grade. Valid reasons include falling sick supported by a medical certificate and participation in NTU's approved activities supported by an excuse letter from the relevant bodies.

If you miss a lecture, you must inform the course instructor via email prior to the start of the class.

(3) Absence Due to Medical or Other Reasons

If you are sick and not able to attend a quiz or midterm, you must submit the original Medical Certificate (or another relevant document) to the administration to obtain official leave. In this case, the missed assessment component will not be counted towards the final grade. There are no make-up quizzes or make-up midterm.

Academic Integrity

Good academic work depends on honesty and ethical behaviour. The quality of your work as a student relies on adhering to the principles of academic integrity and to the NTU Honour Code, a set of values shared by the whole university community. Truth, Trust and Justice are at the core of NTU's shared values.

As a student, it is important that you recognize your responsibilities in understanding and applying the principles of academic integrity in all the work you do at NTU. Not knowing what is involved in maintaining academic integrity does not excuse academic dishonesty. You need to actively equip yourself with strategies to avoid all forms of academic dishonesty, including plagiarism, academic fraud, collusion and cheating.

In view of the nature and objectives of the required assignments/CA of this course, the use of generative AI like ChatGPT is not authorised. If relevant instruments adopted by the university suggest a substantial use of generative AI in a student's assignments/CA, the course instructor will investigate the incident in collaboration with CITS (if necessary), to verify whether there has been unauthorised use of GAI that can potentially amount to plagiarism.

If you are uncertain of the definitions of any of these terms, you should go to the <https://entuedu.sharepoint.com/sites/Student/dept/ctlp/SitePages/Academic-Integrity.aspx> for more information.

Appendix 1: Assessment Criteria for Class Participation (20%)

Criteria	Weighting	Performance Level		
		Fail standard (0-39)	Pass standard (40-70)	High standard (71-100)
Level of engagement	10%	Contributed infrequently to the course in terms of offering of ideas/ asking of questions/ volunteering answers	Contributed to the course by offering ideas/ asking questions/ volunteering answers at least once in each session.	Proactively contributed to the course by offering ideas/ asking questions/ volunteering answers multiple times every session.
Quality of contribution	10%	Contributions were not relevant and did not reflect understanding of the topics, draw connections, build upon remarks of other students, nor demonstrated critical thinking.	Average number of contributions were relevant and reflected understanding of the topics, draw connections, build upon remarks of other students, and/or demonstrated critical thinking.	Majority of contributions were relevant and reflected understanding of the topics, draw connections, build upon remarks of other students, and/or demonstrated critical thinking.
Total	20%			

Appendix 2: Assessment Criteria for

Team Project Presentation (25%)

Clarity of presentation and flow of delivery	6%
Appropriateness of the contents/materials used in the presentation	7%
Knowledge of the contents/materials presented and ability to respond to questions	7%
Mechanics: team dynamics, eye contact, hand gestures, sparing use of notes, voice control	5%
TOTAL	25%

Grade Range	Description
A Range	Very clear and focused presentation; completely appropriate materials and content; demonstrated superior content knowledge; outstanding ability to respond to questions; highly effective team dynamics, sufficient eye contact, minimal use of notes, excellent voice control.
B Range	Somewhat clear and focused presentation; generally appropriate materials and content; demonstrated fair content knowledge; satisfactory ability to respond to questions; generally effective team dynamics; adequate eye contact, satisfactory use of notes, appropriate voice control.
C Range	Unclear and unfocused presentation; inappropriate materials and content; demonstrated little/no evidence of content knowledge; lack of ability to respond to questions; ineffective team dynamics, poor eye contact, excessive use of notes, poor voice control.
F (fail)	No presentation delivered.

Team Project Written Report: 25%

Each team will also submit a written report with the following parts:

- A. Executive Summary: a snapshot of the project, including the technology or invention, its unique value proposition, commercialization opportunities, target market segment/s, competitive advantage, and financial potential. (Note: Although the executive summary is the first section of the writeup, it is typically the last section that the team completes because its content depends on the rest of the sections).
- B. Product/Technology Description: the product or technology, its current stage of development, market readiness, unique features or proprietary aspects of the technology, how it works, and why it is an improvement over existing products/solutions.
- C. Market Analysis: target market/s for the technology, including descriptions of market size, growth rate, and trends; product-market fit (profile of the market and the needs addressed by the technology).
- D. Commercialization Strategy: path-to-market (or go-to-market) strategies; manufacturing, distribution, revenue model (e.g., sales, licensing, subscription or XaaS, etc.), regulatory or legal considerations.
- E. Team and Resources: people needed to increase the chances of success, including relevant skills, qualifications, and competencies; partnerships (e.g., academic, corporate/industry) necessary for commercialization success.
- F. Financial Overview: high-level financial summary including initial costs, pricing strategy, revenue projections; include funding requirements and potential sources of funding.
- G. Risks and Mitigation: main risks to the commercial success of the technology and how to mitigate or manage these risks; may include best/worst case scenarios and backup plans (alternative options).
- H. Conclusions and Next Steps: summary of commercial potential and recommendations on the immediate next steps or call to action.
- I. References

Marks will be awarded as follows:

Below Expectation (C Range)	Meets Expectation (B Range)	Exceeds Expectation (A Range)
Missing parts; incomprehensible analysis; little to no supporting evidence	All parts are intact; generally comprehensible analysis; adequate and appropriate supporting evidence	Complete, well-developed parts; comprehensible analysis; sufficient and convincing supporting evidence

F (fail) = No submission.

Please use readable fonts (serif or sans-serif) with at least a 12-point font size, one-inch margin on all sides, single spacing. The following are the page guidelines for each section:

Executive Summary	Between 1 – 2 pages
Product/Tech Description	Between 1 – 3 pages
Market Analysis	Between 1 – 3 pages
Commercialization Strategies	Between 1 – 3 pages
Team and Resources	Between 1 – 2 pages
Financial Overview	Between 1 – 2 pages
Risks and Mitigation	Between 1 – 3 pages
Conclusions and Next Steps	Between 1 – 2 pages
References	Between 1 – 2 pages
TOTAL	Between 9 – 22 pages

Appendix 3: Assessment Criteria for Final Reflection Memo (10%)

Grade Range	Description
A Range	Demonstrates thorough and deliberate contemplation consistently, in terms of both depth and breadth; provides an excellent understanding of oneself vis-à-vis what one has learned from the course.
B Range	Demonstrates thorough and deliberate contemplation to some extent, in terms of both depth and breadth; provides a good understanding of oneself vis-à-vis what one has learned from the course.
C Range	Demonstrates fair contemplation, in term of both depth and breadth; provides some understanding of oneself vis-à-vis what one has learned from the course.
F (fail)	Unable to demonstrate deliberate contemplation; no submission.

Appendix 4.1: CONFIDENTIAL PEER EVALUATION FORM FOR TEAM PROJECT

~ to be completed online via Eureka in NTULearn

Name: _____

Seminar group: _____

Team # : _____

Please use the Peer Evaluation Rubric in Appendix 2.1b to evaluate your team members on each of the 5 stated attributes (on a scale of 1 to 7). State your ratings for each of your team members in the table below.

		Attributes (on a scale of 1 to 7)				
Index #	Name of team members	1 - RR	2 - CM	3 - CR	4 - CT	5 - RS
1						
2						
3						

If any of your ratings above is < 4, please provide a brief explanation to justify the ratings.

Index #	Brief explanation to justify a rating of < 4

Appendix 4.2

Teamwork & Interpersonal Skills (Peer Evaluation) Rubric

Learning Objective: The ability to work effectively with others in a group setting.

Traits	Performance	
<u>1. Roles and Responsibility (RR)</u> Behaves professionally by upholding responsibility and assuming accountability for self and others in progressing towards the team's goal.	Scant Unclear about his/her own role; refuses to take a role in the group; insists to work individually and has limited coordination or communication with others.	Substantially Developed Always fulfills responsibilities; performs his/her role within the group with enthusiasm and demonstrates willingness to work collaboratively.
	Evaluation: Scant 1 2 3 4 5 6 7 Substantially Developed	
<u>2. Communication (CM)</u> Identifies appropriate mechanisms to coordinate and correspond with team members.	Scant Modes of communication are not appropriate, causing confusion and miscommunication among team members.	Substantially Developed Modes of communication are appropriate, and maintaining timely communication and correspondence with team members.
	Evaluation: Scant 1 2 3 4 5 6 7 Substantially Developed	
<u>3. Conflict Resolution (CR)</u> Resolves conflicts using a variety of approaches.	Scant Does not recognize conflicts or is unwilling to resolve conflicts.	Substantially Developed Consistently resolves conflicts through facilitating open discussion and compromise.
	Evaluation: Scant 1 2 3 4 5 6 7 Substantially Developed	
<u>4. Contributions (CT)</u> Contributes positive input for the team; effectively utilizes one's knowledge and expertise.	Scant Largely disinterested in working in a group and refuses to participate; observes passively or is unwilling to share information with other team members.	Substantially Developed <u>Actively attends and participates in all activities and provides meaningful contribution in articulating ideas and opinions.</u>
	Evaluation: Scant 1 2 3 4 5 6 7 Substantially Developed	
<u>5. Relationship (RS)</u> Maintains cooperative interaction with other team members regardless of	Scant Rarely listens to others and does not acknowledge the opinions that differ from his/her own.	Substantially Developed Engages in respectful relationships with all other members in the team. Embraces and accepts diverse points of view without prejudice.

individual /cultural differences and respects diverse perspectives.	Evaluation: Scant <u>1</u> <u>2</u> <u>3</u> <u>4</u> <u>5</u> <u>6</u> <u>7</u> Substantially Developed
